Hi Jerry,

We received a wonderful care package from you and the CFMA today. A big thank you from all the Soldiers in the Pharmacy to every person who contributed to the package. A special thank you to Tyler, the 6th grader from Puyallup, WA who wrote a personal note to us. Have no worries, all the snacks you sent to us will be eaten, and quickly! Great job on selecting individual serving snacks. This way we can share them all. All of the items arrived in great condition also.

We have no requests, besides your continued verbal support. It is great for us to read letters from those who understand what Soldiers do in war...follow orders, not make policy. But snacks to supplement three meals a day from the DFAC is welcomed change.

Good luck in your fund raisers, burn victims are an important charity.

I'm sure watching the fire evolutions is only half as fun as competing in them.

Hopefully we all come home soon.

v/r,
